PROFILE

As a recent graduate with a Bachelor's degree in Computer Engineering, I am eager to embark on my journey in the dynamic world of technology. With a passion for problem-solving and a drive to innovate, I am seeking an entry-level opportunity to kickstart my career in the tech industry.

Have good knowledge of software Development Life Cycle(SDLC). Principle/concepts

Knowledge of Agile Methodologies

WORK EXPERIENCE

Front-End Developer

HB GADGET TECHNOLOGY ND SOLUTION PVT LTD

2023-2024

- Utilized React, HTML, CSS, Bootstrap, Tailwind, and Git, Github, for website front-end design
- Utilized Node.js Express.js, MongoDB, and Restful API for back-end
- Development.

Key Takeaways:

- Improved skills front-end and back-end development tools and technologies.
- Learned about teamwork and communication in a development environment.
- Expanded knowledge and developer workflows, problem-solving, and project Management.
- Developed adaptability and resilience in tackling intricate development issues.
- Enhanced code versioning and collaboration skills using the Github platform.

This experience not only refined my technical expertise but also offered valuable insights into the comprehensive approach to software development, emphasizing the significance of effective communication and collaboration for project success.

INTERNSHIP EXPERIENCE

Front-End Developer

HB GADGET TECHNOLOGY ND SOLUTION PVT LTD

DEC 2023- APRIL 2024

- During my five-month Front End Developer Internship, I actively engaged in developing web applications and crafting user interfaces. My projects included creating a scientific calculator and a notes app with local storage using HTML, CSS, and JavaScript. Additionally, I undertook a solo project to develop a food blogging website. In this project.
- Displayed content on the homepage based on data received from an API in JSON format.
- Created an admin panel to update and save data by posting JSON objects.
